## **Clean Water Guidance for Agriculture Webinar**

On Wednesday October 19<sup>th</sup>, the Department of Ecology will host a one-hour webinar to share the feedback we have received on how to design a process to develop clean water best management practices (BMP) guidance for agricultural sources of nonpoint pollution. The webinar will focus on common themes that we heard from stakeholders and how we used that information to design a collaborative process for future work. After the presentation, we will take questions from participants.

Our objective is to design a process that is inclusive, responsive, and respectful, because ultimately, we hope to develop guidance that the agriculture industry will support because it's beneficial to healthy farms and clean water. More information on this project can be found at our [website](#).

To participate, please register by clicking on the following link:

### **[REGISTER FOR THE WEBINAR](#)**

Topic: Clean Water Guidance for Agriculture

Date: Wednesday, October 19, 2016

Time: 3:00 pm, Pacific Daylight Time

Thanks,

***Ben Rau***
