**PRESENTER**

Yakima County Prosecuting Attorney  
Joe Brusic

# Yakima County Prosecutors Office

## Questions

# Group Discussion

# Open Discussion

**1. The top 3-5 problems Prosecutor's Office faces (with respect to your facilities or anything else law and justice related)**

**Space: logically challenging, expensive and degrading infrastructure**

- The prosecutor's budgeted staff totals 86, with occasional interns and volunteers
- 4 Divisions (Felony, District Court, Juvenile, and Support) occupy space on three floors of the Courthouse, Juvenile and in three leased buildings (Yakima, Kittitas and Grant Counties)

**Monthly expenditure on Support Division leases: \$15,425.31 (\$185,103.72 per year)**

**Yakima \$11,163.82 (\$10,863.82 & parking \$300.00)**

**15 Employees work in this office**

Kittitas County \$1900.21

Grant County \$2361.28 (rent \$1896.91 and utilities \$464.37)

*Note: These two Divisions will not be considered coming into the new facility;*

**Staffing impact examples:**

- Redundancies (5 front desk receptionists)
- No potential for cross-training with other divisions
- Prosecutors who handle felony and misdemeanor cases are on different floors which breaks down flow of communication and collaboration; need to think and work collectively

**Examples of constraints:**

- Recently built a free-standing office cubicle (\$9,026) to accommodate a Sr. Manager and a second flexible work space
- Eliminated a conference room on the 2<sup>nd</sup> floor to accommodate staff; poses a problem when victims and witnesses must walk through the Court corridors to access another private interview space.
- Considering using a small storage closet on the 2<sup>nd</sup> floor as work space; requires rewiring and the installation of ports and outlets.
- Using a folding plastic table as a desk for the Intern

**2. List any current needs the Prosecutor's Office has.**

- The most important factor right now is space

**3. Your vision for Prosecutor's Office looking ahead 15 years.**

- Centralized staff with integrated resources
- Environment conducive to productivity which helps to create a culture of commitment (so it has to have progressive features, comforts, move away from sterile, traditional government "look")
- Reasonable proximity to law enforcement would be beneficial
