______________________________________________________________________________________________
______________________________________________________________________________________________

Have you completed your pre-application meeting with natural resources staff (required)? YES ☐ NO ☐

Circle the critical areas are present on your property: (Determined at the above meeting)
Geologic Hazard FEMA Floodplain Wetland Stream, Pond, or Other Habitat Area
INSTRUCTIONS

NOTE: If your project involves Agricultural Activities on designated Rural or Agriculture lands, consult with a natural resources planner.

Consult with a Natural Resources Planner BEFORE using this application form. Read this questionnaire BEFORE designing your project so that you can design the project to meet the standards. If you have designed the project without consideration of the legal requirements, then the review process will be much more difficult, take much more time, and will likely need costly changes to the plans. A project that clearly meets all the standards is much easier and less time consuming for your project reviewer to approve. Please consider if you will be able to prepare the application yourself or whether you will need to work with a private consultant.

IMPORTANT: Please understand that many projects require that a critical areas study performed by qualified professional be submitted to identify the critical area. There are some instances where staff can easily perform the identification, and help you avoid a report, but that is not always the case.

Please note that you probably will not need to submit all pages – only those that apply. There are 5 required pages. Supplemental pages may be needed. The Natural Resources Planner assisting you will help you determine which pages to remove, and will help with answering questions.

The questions are designed to help you and the application reviewer understand how your project meets the legal requirements in the Critical Area Ordinance (CAO) and Shoreline Master Program (SMP). In filling out this questionnaire, be sure to refer to the appropriate sections of the CAO. If you are within Shoreline jurisdiction, you should also refer to the SMP. You can obtain a copy of the SMP in our offices. You can obtain a copy of the CAO in our offices, or access it on the internet at:

http://www.co.yakima.wa.us/cmrs (choose ‘County Code)

The questionnaire is organized around groups of questions concerning different subjects, which are clearly labeled. All applications are required to answer the questions regarding whether the Use is Allowed and for meeting the General Standards. The questions on the supplemental must be answered when different subjects apply to the project (for example: filling, roads, utilities, etc). There are seven (7) questions on the first page of the questionnaire used to determine which of the supplemental sheets to fill out. If you answer YES to one of these questions, then that sheet of questions applies to the project and you must include it. If there is a sheet of questions which do not apply to your project, you may remove that sheet from the questionnaire.

Each group of questions relates to a particular subject and is headed by a shaded box. The box asks if all the standards for that subject are met. Circle either the YES or NO answer based on the questions under the shaded box. If you answer NO in the shaded box, you will need to modify your plans or apply for an adjustment or variance of the standard – a separate application. The questions under the shaded box help you determine if you are meeting the standards. The questions are arranged in nested order – meaning that when questions are indented under another question, they are related to just that question. If you need help understanding the layout of the questionnaire, or need help with specific questions, contact your Natural Resources Planner. If you wish to fill out the questionnaire digitally, contact a staff person for a MS Word version.
Shoreline & Critical Areas Questionnaire
For Streams, Ponds, Wetlands, Floodplains, and other Habitat Areas
(Required Page – Allowed Uses and General Standards)

Project description (from application form): _____________________________________________
Owner Name: ___________________________________________ Phone #: __________________
(Be sure to sign this form on last page.)

For Staff Reference
Project #: __________________ Case #: __________________

NOTE: If you answer NO to the questions in the shaded boxes of the questionnaire, you will need to either change your plans to conform to the requirement, or obtain an Adjustment or Variance from the standard that is not met. Such reviews require separate forms and materials to be prepared, and may delay the project.

QUESTION SHEETS TO INCLUDE IN THIS QUESTIONNAIRE
All projects must answer questions on the 5 REQUIRED sheets regarding Allowed Uses and General Standards. Answer the questions below to determine what supplemental sheets you also need to fill out. If you answer YES, then that sheet of questions must be included. If there is a supplemental sheet of questions which do not apply to your project, you may remove that sheet from the questionnaire.

- Suppl. A - Does your proposal disturb land or water areas; or revegetate critical areas? NO YES

- Suppl. B - Does your proposal include work on a transportation facility? NO YES
  [EXAMPLES include driveways, parking areas, roads, bridges, etc.]

- Suppl. C - Does your proposal include work on utilities? NO YES
  [EXAMPLES include sewer/septic, water, electrical, communication, etc.]

- Suppl. D - Does your proposal include in-channel work, bank stabilization, or flood protection? NO YES
  [EXAMPLES include bank barbs, weirs, groins, jetties, dikes/levees, large wood, etc.]

- Suppl. E - Does your proposal include excavation on land or dredging in water? NO YES
  [NOTE: Be sure to consider the material excavated for foundations and crawl spaces.]

- Suppl. F - Does your proposal include placing fill material on the land or in the water so it elevates the surface? NO YES
  [NOTE: Be sure to consider the material excavated for foundations and crawl spaces.]

- Suppl. G - Does your proposal involve gravel mining? NO YES

I certify that the pages indicated above are filled out and attached as part of this application:

LANDOWNER’S SIGNATURE: ______________________________________ DATE: ____________
1. Is the proposed use either an **Allowed Use** or an existing **Non-Conforming Use**?  
   **YES** **NO**  
   *(See YCC 16C.06.10; 16C.05.32.020; 16C.05.36.020; 16C.06.11(23); & SMP Sections 9 & 15)*

   (A) What is/are the existing use(s) of the property?

   (B) What will the use(s) be after the project?

   (C) Does the project include an activity that is a **Prohibited Use** that will be located within a stream, wetland, vegetative buffer, floodplain, or floodway? *(See YCC 16C.06.10)*  
   **YES** **NO**

   **Prohibited uses include:**
   - Storage/handling of dangerous/hazardous materials
   - Storage/handling of waste materials
   - Draining/filling a wetland (except under certain cases)
   - Excavation to obtain fill
   - Wells that are shallow or uncased
   - Mine tailings, spoilage, mining waste
   - Confined Animal Feeding Operations
   - Automobile wrecking yards
   - Vehicle and material storage within a floodway
   - Dwellings/residences in a floodway
   - Waste disposal facilities (includes stormwater wells/ponds, but doesn’t include filtration swales)
   - Construction or storage of objects in a floodway that can float or move during a flood
   - Structures and fill in a floodway, except in certain circumstances
   - Damming a watercourse in a floodway, except in certain circumstances
   - New and expanded Mobile Home Parks in the floodplain

   (D) Does the project involve **changing from one use-type to another**?  
   **YES** **NO**  
   *(See YCC 16C.06.11(23)) (Examples include residential to commercial, agriculture/vacant to residential, commercial to recreation, etc.)*

   **If YES:**
   (i) How will the conversion reduce impacts to the critical area or shoreline?

   (ii) How will the conversion restore/enhance the critical area or shoreline functions and values?

   (E) Is the project within Shoreline Jurisdiction?  
   **YES** **NO**  
   *(NOTE: Please consult with a Natural Resources Planner for assistance on Shoreline matters. The Shoreline Master Program regulations apply in Shoreline jurisdiction.)*

   **If YES:**
   (i) What Shoreline environment is it in?

   (ii) Is the project an allowable use for the Shoreline environment?  
   **YES** **NO**

   (iii) Does the project meet the special requirements for the applicable uses and activities listed below?  
   Circle all appropriate uses and activities **and provide a written response to standards**.

- Bank Armoring
- Revegetation
- Dock/water access
- Other:
Shoreline & Critical Areas Questionnaire
For Streams, Ponds, Wetlands, Floodplains, and other Habitat Areas
Required Page – Allowed Uses and General Standards

2. Does the project meet the General Standards (see YCC 16C.06.11), the Vegetative Buffer Standards (see YCC 16C.06.12-.16; & SMP 15), and the General Critical Areas Protective Measures for subdivisions (see YCC 16C.03.27(3))?

(A) Water Dependency - Are parts of the project particularly dependant or related to the water? (See YCC 16C.06.12-.16)

   (i) If YES, which ones?

(B) Will all Non-Water Oriented parts of your project meet the vegetative buffer and setbacks in YCC 16C.06.16?

   [NOTE: The questions below cover common project elements to consider.]

   (i) Does your vegetation management zone (a width around the structure) for Wildland-Urban fire protection meet the buffer requirements?

   (ii) Does your septic tank/drainfield, well and well house, power poles, and all utility lines meet the buffer requirements?

   (iii) Does your driveway/access road meet buffer requirements?

   (iv) Do your yard, outdoor use areas, landscape features, recreation facilities, etc. meet buffer requirements?

   (v) Do the construction areas for the items above meet buffer requirements?

(C) Are the critical area features marked on the ground?

(D) How will you protect other riparian vegetation (water loving plants growing because there is a stream or wetland nearby) on the property?

(E) How will you avoid disrupting fish habitat and wildlife habitat?

(F) Can you avoid critical areas by placing the project away from them?

(G) Can you reduce the size of the project (amount of fill, size of structures, etc.)?

(H) Describe how you are minimizing the amount of disturbance on the property.

(I) Are you obtaining a local/federal/state/or tribal stormwater permit?

   (If not or if you are exempt from them, you must meet the CAO’s stormwater standards.)

(J) Describe your erosion control measures and your stormwater runoff control measures.

(K) Are chemicals, nutrients, wastes, or toxins currently present on the site, or used during development, construction, or operation of the property?
**Shoreline & Critical Areas Questionnaire**  
*For Streams, Ponds, Wetlands, Floodplains, and other Habitat Areas*  
**Required Page – Allowed Uses and General Standards**

1. **(L)** Will the project change or cross a stream channel or wetland?  
   (i) If YES, describe what changes are proposed?  
   **YES**  **NO**

2. **(M)** Will the project change or cross the floodplain, floodway, or any flood overflow channels?  
   (i) If YES, describe what changes are proposed?  
   **YES**  **NO**

3. **(N)** Is the project near an eroding bend in a stream or near a Channel Migration Zone (for larger streams)?  
   **YES**  **NO**

4. **(O)** Will there be a well used?  
   (i) If YES, provide details on the depth and casing/lining? (If existing, provide the well log.)  
   **YES**  **NO**

5. **(P)** Does the project include the subdivision of land?  
   (i) If YES, are the lots configured to protect critical areas as required by 16C.03.27(3)? (For example critical area lots, building envelopes, lot size, restoration of degraded areas, etc.)  
   **YES**  **NO**

6. **(Q)** For proposals that involve disturbing land or water areas, or replanting critical area vegetation, does the project meet the Reclamation standards?  
   **YES**  **NO**  **NONE PROPOSED ___**
   (See YCC 16C.06.23)

7. **(A)** Will there be disturbances in the water or wetlands?  
   **YES**  **NO**

8. **(B)** Will there be disturbances on land?  
   **YES**  **NO**

9. **(C)** When will you restore disturbed areas?  

10. **(D)** How will you restore disturbed areas (if you have prepared a restoration plan, just refer to it)?  

   (i) Will you need to add fill to ensure that vegetation has a growing medium?  
   **YES**  **NO**

11. **(E)** Describe how you will make the final site topography stable.

12. **(F)** What plants will you use to re-vegetate the different areas of the site?

13. **(G)** Describe what mitigation you are proposing to compensate for impacts to the critical areas or shorelines? (If you need assistance, contact a natural resources planner.)
Shoreline & Critical Areas Questionnaire
For Streams, Ponds, Wetlands, Floodplains, and other Habitat Areas
Supplemental Page -- Transportation

1. For proposals that include establishing a transportation facility, does the project meet the Roads and Railroads standards?  
   (See YCC 16C.06.17; 16C.05.36.010(7) & (2); SMP 15.09)
   (Examples include driveways and parking areas.)

   (A) Why do you need to locate the transportation facility in the critical area or shoreline?

   (B) Describe the ways you could place the facility further away from or outside of the critical area or shoreline?

   (C) Will fill be used to elevate the facility, or will it be constructed at grade?

   (D) Will any fill used in the facility include construction waste or other debris?  YES NO

   (E) Is the facility located in any designated floodplain or floodway area, or in a flood overflow channel?  YES NO

   (i) If YES, has a floodway been defined at this location?  YES NO

   (See YCC 16C.05.36.010(7) & (2A/B/G))

   (F) Does the project involve a bridge or other crossing over a stream or wetland?  YES NO

   If YES:

   (i) Is there a way to provide access without using a new crossing (to a different road, etc.)?  YES NO

   (ii) Is there an existing crossing nearby?  YES NO

   (iii) Describe how the crossing location was chosen to use the most direct route, and have the least impact possible?

   (iv) Will the crossing constrict the stream channel (the width between the channel banks) or impede the stream flow?  (See YCC 16C.06.17(5))  YES NO

   (v) Will the crossing constrict the width of any defined floodway?  (See YCC 16C.05.36.010(7 & 2B))  YES NO

   (vi) Describe how have you have designed your crossing’s approaches to allow high floodwaters to pass around them without destroying the crossing or approaches (using a road dip, returning to grade quickly, extra culverts, etc.)?  (See YCC 16C.06.17(3 & 10))

   (vii) Is the crossing a culvert?  YES NO

   If YES:

   (a) Does the culvert parallel the stream’s flow and match the channel bed?  YES NO

   (b) Does the culvert provide for a natural material channel bottom (arch pipes, squash pipes, open bottom)?  YES NO
1. For proposals that include **Utilities or Transmission Lines**, does the project **YES** **NO** meet the **Utility standards**?  
   (See YCC 16C.06.18; 16C.05.32.010; 16C.05.36.010(2); SMP 15.10; SMP 15.06; SMP 15.07)  
   (Examples include sewer/septic, water, electrical, communication, etc.)

   (A) Why do you need to locate the utility facility in the critical area or shoreline?

   (B) Describe the ways you could place the facility further away from or outside of the critical area or shoreline?

   (C) Will the utility result in elevated ground or structures that can block/divert flood flows?

   (D) Where will excess material that is displaced by lines and bedding material, or foundations be deposited?  
   **[NOTE: That location may also require zoning, critical areas, or other review.]**

   (E) Does the utility facility handle hazardous materials or potential pollutants?  
   **YES** **NO**

   (i) If **YES**, describe them.

   (F) Does the facility only provide service to individual customers in the immediate area?  
   **YES** **NO**

   (see YCC 16C.05.32.010 & 16C.05.36.010)

   (G) Is the utility facility above ground or below ground?  
   **[NOTE: Most utilities in shoreline jurisdiction must be buried underground.]**

   (i) **If above ground** (overhead lines, connecting to bridge, etc.):

   (a) Are supports placed as far upland as possible or (if within the floodwaters)  
      **YES** **NO** in areas safest from high flood velocities and depth?

   (ii) **If below ground** (pipelines, etc.):

   (a) Describe its depth and the method of installation (bored, or trenched, or ‘plowed’).

   (b) Describe how you will prevent the trench from acting like a “french-drain” in high groundwater areas.

   (c) Is there a Channel Migration Zone or indications of historic  
      channels in this location?  
      **[NOTE: Contact a staff planner for assistance.]**

   (d) Will it be placed in a sleeve for easy repair outside any stream/wetland?  
      **YES** **NO**

   (H) Does the utility facility involve a bridge or other crossing over a stream or wetland?  
   **YES** **NO**

   **If YES:**

   (i) Is there a way to provide the utility service without a new crossing by  
      connecting from another direction?  
      **YES** **NO**

   (ii) Are you using an existing crossing location? (See YCC 16C.06.18(4))  
      **YES** **NO**

   (iii) Describe how the crossing location was chosen to use the most direct route, and have the least impact possible.

Utility Supplemental – Page 1
Shoreline & Critical Areas Questionnaire

For Streams, Ponds, Wetlands, Floodplains, and other Habitat Areas

Supplemental Page -- In-Channel Work, Bank Stabilization, or Flood Protection

1. For proposals that involve in-channel work, bank stabilization, or flood protection, does the project meet the Shore Stabilization standards?

   YES   NO

   (See YCC 16C.06.19; SMP 15.13; 16C.05.28.010(a & d)); 16C.05.36.010(5 & 6)

   (Examples include bank barbs, channel weirs, groins, jetties, berms/dikes, large wood, etc.)

   (A) Describe the shore stabilization work are you proposing?

   (B) What consultants and agencies are assisting you at this time?

   [NOTE: You will need professional assistance to design your stabilization work.]

   (C) Why do you need to do the in-channel work, bank stabilization, or flood protection?

   (i) When did the problem start?

   (ii) Rate the severity of the problem.  Mild  Moderate  High  Extreme

   (iii) Has there been a sudden and major bank failure?

   YES   NO

   (iv) Is the problem caused by normal river/stream movement?

   YES   NO

   (v) Is the bank already armored?

   YES   NO

   (a) If YES, is it being maintained?

   YES   NO

   (D) Are there any structures at risk due to close proximity to an erosion problem?

   YES   NO

   (i) If YES, list the structures and their distance from the problem site

   Structure  Distance

   (E) Is the project in a designated floodway?

   YES   NO

   (F) Is your project designed using the Integrated Streambank Protection Guidelines prepared by Wa. Dept. of Fish and Wildlife?

   [NOTE: You will likely need professional assistance.]

   (G) Describe how you are minimizing the number and size of structures?

   (H) Have you implemented the preference for non-structural protection measures?

   YES   NO

   [NOTE: The questions below are arranged from most preferred to least preferred]

   (i) Have you tried using non-structural protection measures yet?

   (Avoidance, moving the facility, general vegetation planting, etc.)

   YES   NO

   (a) If NO, explain why not.

   (ii) Have you tried using ‘bio-engineering’ yet?

   (Intensive revegetation, branch-cutting bundles, planted soil lifts, etc.)

   YES   NO

   (a) If NO, explain why not.
Shoreline & Critical Areas Questionnaire  
For Streams, Ponds, Wetlands, Floodplains, and other Habitat Areas  
Supplemental Page -- In-Channel Work, Bank Stabilization, or Flood Protection

(iii) Are you installing specific features made of natural materials (wood & rock)? YES NO  
(Bank barbs, log vanes, root-wad armoring, etc.)

(iv) Are you installing an erosion resistant covering (rip-rap, etc.) using natural-materials? YES NO

(v) Are you installing structures using concrete? YES NO  
(Bulkheads, revetments, rock grouting, etc.)

(I) Are you installing permanent structures? YES NO  
(Examples include barbs, bulkheads, revetments, breakwaters, groins, etc.)

If YES:
(i) Described how you have minimized the height of the structures?

(ii) Describe your plans for future maintenance?

(J) Will the effect of your work be to prevent normal channel movement processes, either vertically (grade control) or horizontally (bank armoring)? YES NO

(K) Are you trying to restore lost land? YES NO

(i) If YES, will the new land be within the existing ordinary high water? YES NO

(L) Describe how your structures are designed to be stable over time, including the need for any periodic maintenance.
1. For proposals that include excavation on land or dredging in the water, does the project meet the Dredging and Excavation standards? YES NO

[NOTE: Be sure to consider the material excavated for foundations and crawl spaces.]

(A) Will there be dredging in the water or a wetland? YES NO
   (i) What use is the dredging for?
   (ii) Where will the dredge spoils go?
   (iii) Have you attached a dredging plan? YES NO

(B) Will there be excavation on the land? YES NO
   (i) What use is the excavation for?
   (ii) Where will the excavated material go?
   (iii) What volume of excavation is proposed?

(C) Describe how you are minimizing the amount of dredging/excavation needed.

2. For proposals that include Fill, does the project meet the Filling standards? YES NO

[NOTE: Be sure to consider the disposal of material excavated for foundations and crawl spaces.]

(A) Is there fill placed in the water or a wetland? YES NO
   (i) If YES, what use is it for, and what type of material is to be used?
   (ii) Is there fill placed in the floodplain or floodway? YES NO
   (iii) Is there fill placed in other land areas? YES NO
   (iv) If YES, what use is it for?

(D) Describe how you are minimizing the amount of fill needed.

   (i) Are you using fill to elevate a structure? YES NO
   If YES:
      (a) Is it possible to use pilings/piers rather than fill? YES NO
      (b) Is it possible to elevate any structure on a foundation rather than on fill? YES NO

(E) What volumes and materials are you using for the fill?

(F) What erosion control will you use for the fill area?
1. For proposals that involve **gravel mining**, does the project meet the **Gravel Mining standards**?

   (See YCC 16C.06.22; 16C.05.36.010-.020; SMP 15.04)

[NOTE: Provide copy of DNR permit, or reclamation plans following state standards.]
The Narrative Form is designed to help you, the application review, interested agencies, and adjacent property owners to the proposal understand the scope of your project and how your project meets the legal requirements in the Yakima County Codes. You should refer to the appropriate sections of the ordinance when describing your proposal if applicable. You can obtain a copy of the ordinance in our office or access it on the internet at:

http://codepublishing.com/wa/yakimacounty/

Narrative Content: Please tell us the “who”, “what”, “where”, and “why” of your proposal. A list of typical content is provided below. Please do not limit your project’s description to just these items. In order for us to conduct a timely review of your project please be as detailed as possible. Any missing/confusing information could result in the delay of our review.

Note: Not all content listed below will be pertinent to your proposal. These items are suggestions in order to help you draft your narrative.

Suggested Content:

- Describe the current use of the site including all existing structures with their dimensions, square footage and usage.
- Describe the type of mitigation or adjustment requested.
- Describe which standards are proposed to be adjusted and justify why the standard needs to be adjusted.
- Describe any new or existing structures to be used as part of this proposal.
- Describe how the proposed use will be pertinent to the proposed/existing structures.
- Describe any parking facilities (number of spaces and surface type), landscaping, signage, and lighting that will be associated with your proposal.
- Describe your access to the property and the route of travel to the site.
- Describe the timelines for completion of your proposal.

Answer the Following (Required Information):

1. Is your project within shoreline jurisdiction? □Yes □No
   What type of shoreline environment? □Rural □Urban □Natural
   □Conservancy □Urban Conservancy □Floodway/CMZ

2. Are you applying for an exemption? Please list type of exemption (see WAC173-27-040 Exemption Brochure)

3. Have you met with a natural resources staff prior to application? □Yes □No
   From this meeting what type of critical areas are present on your property?
   □Geologic Hazard □FEMA floodplain □Wetland □Stream □Pond
   □Other Habitat Area: (what type)
Please remember that your narrative must explain in detail the specifics of your proposal and any missing information may result in the need for future reviews. Your narrative can be typed and printed on a separate sheet of paper with “See Attached” written below, or you may print out legibly your narrative on the lines provided.

By signing this form you are certifying that the above information is attached and accurate.

Landowner/Representative Signature: ___________________________ Date: ___________

**NOTE:** Representatives must be listed on the Application Form, with their signature.
Instructions for Shoreline/Critical Areas Permit Submittal Checklist

1. Pre-Application and Site Visit
   Schedule a Pre-Application Meeting and site visit with a Natural Resources Planner. A Pre-Application Meeting is required before submitting an application. This is often in conjunction with a site visit to confirm the presence of the critical area. Information useful in helping you design the project will be provided, and the type of required review and permits will be determined.

2. Permit Application Form
   Fill out the application form with person, property, and project information that applies to your proposal. Fill out the non-shaded areas. Include any reductions of standards you are requesting, and list the main parts of the project (residence, bridge, business, addition, etc.). Consult with a Natural Resources Planner to help determine what critical areas are present. Be sure to include signatures and contact information of all owners of the properties in question.

3. Shoreline/Critical Areas Questionnaires
   Fill out the applicable questionnaires (instructions are provided with each). Be sure to answer all applicable questions to avoid delays in the review. The questionnaire will help you design your project in a way to meet the ordinance requirements. The answers to the questions will speed our review of the project.

4. Special Review Criteria Responses – Consult with a Natural Resources Planner to determine what special reviews will be needed with your project. Attach all applicable criteria responses to your application. The application cannot be approved unless the criteria are met.
   - If a project cannot meet a Shoreline standard, then a Shoreline Variance is required. A Variance may be approved if meeting a particular standard would cause undue hardship. Applications for Variances must include a response to the Shoreline Variance criteria, which are found in the information sheet on Shoreline Variances.
   - Certain uses are listed as Shoreline Conditional Uses, because they may not be acceptable at certain locations, or may need special consideration. Applications for Conditional Uses must include a response to the Conditional Use criteria, which are found in the information sheet on Shoreline Conditional Uses.
   - Critical Areas Adjustments may be authorized when conditions preclude meeting an ordinance standard, and where the site plan and project design include protection or improvement of the critical area. Applications for Adjustments must include a response to the Adjustment criteria, which are found in the information sheet on Critical Areas Adjustments.

5. Complete Written Description of the Project
   Describe the different things you are proposing to do, why you are doing them, and how you will do the work. Refer to the Questionnaire to help you describe all the parts of the project.

6. Proposed Mitigation
   Describe the actions you will take to prevent impacts to, or enhance the Shorelines or Critical Areas that are impacted by the proposed land use. Examples of mitigation include plantings, fencing off buffers, etc. Refer to the information sheet on mitigating impacts of development near critical areas.

7. Site Plan / Cross-Sections
   Provide a Site plan that includes all things related to the project, and includes the Shorelines/Critical Areas. Examples: geologic hazard; floodplain; floodway; wetlands, streams, rivers, vegetative buffers; structures; parking/driveway; yard area; etc. Provide Cross-sections to show the relationships between buildings and the critical areas, and to show the finished building height. Both the site plan and the cross-sections must be drawn to scale with distances and the scale shown on the drawing. See the information sheet on preparing Site Plans and Cross-Sections for more information. A copy of the site plan must be provided at a size that we can use to make photocopies.

8. Staff SEPA Consultation
   Most projects need review under the State Environmental Policy Act. However, certain small scale activities may be exempt. Consult with staff to determine if your project qualifies for an exemption.

9. Fees Paid
   Permit fees must be paid before the review process begins.

## Please Tell Us About Your Proposal: (If you need assistance call us at (509) 574-2300 or come into the office)

### Parcel Numbers(s):
- A. __________________________
- B. __________________________
- C. __________________________

### Property Owner’s Name: __________________________

### Day Phone: __________________________

### Company (if any): __________________________

### Mailing Address: __________________________

### City: __________________________ State: __________________________ Zip: __________________________

### Subject Property Address: (if Different) __________________________

### E-mail Address: __________________________

### Scope of Work: __________________________

Are you requesting the Optional Consolidated Permit Review Process as provided under YCC 16B.03.060? Yes [ ] No [ ]

## Applying For A Building Permit? Please Fill Out The Following:

### Number of Bedrooms: Existing: ______ Total: ______ Size/Dimensions: ______ Square Footage: ______

### Number of Bathrooms: Size/Dimensions: ______ Square Footage: ______

## Construction Valuation (Contractor Estimate) $

How will you provide legal domestic water for your project? Please check one below:

- □ Water right permit from Department of Ecology (Please attach a copy to this application), or
- □ Letter from an approved water purveyor stating the ability to provide water, or
- □ A Yakima County Water Resource System (YCWRS) domestic well within the Agriculture zoning district, or
- □ A Yakima County Water Resource System (YCWRS) domestic well outside of the Agriculture zoning district, or
- □ Other adequate evidence of interest in a suitable water right held for mitigation proposed by an existing water bank, or
- □ Yakama Nation Water Code permit for properties located within the exterior boundaries of the Yakama Nation, or
- □ Documentation that the well site is located outside the Yakima River watershed.

Please note that evidence of an adequate water supply must be submitted to Yakima County prior to the issuance of the permit.

By signing this form, I agree to the following:

- I hereby state as true that all ownership interests of the property have reviewed the proposal as presented in the application materials and support the proposed change(s).
- I hereby give Yakima County permission to enter my property during this review to inspect my property as needed.
- I hereby agree to pay all additional fees associated with the processing of this application including but not limited to the Hearing Examiner fees, Transportation fees or any other fees that may be associated with the proposed project.

CONTINUE ON BACK
Yakima County will make reasonable modifications to policies and programs to ensure that people with disabilities have an equal opportunity to enjoy all of its programs, services, and activities. Anyone who requires an auxiliary aid or service for effective communication, or a modification of policies or procedures to participate in a program, service or activity of Yakima County, should contact the Yakima County ADA Coordinator at 509-574-2210 as soon as possible but no later than 48 hours before the scheduled event.

➢ I hereby acknowledge that the application with the Yakima County Permit Services Department has been filled out completely.
➢ I hereby acknowledge that verification of an approved potable water supply is a requirement and part of the procedure to obtain a permit from Yakima County.
➢ I shall provide Yakima County with proof of an adequate water source as indicated in Ordinance 13-2017 or obtain a YCWRS domestic well permit.
➢ I understand that Yakima County shall be held harmless for misinterpretation or misrepresentation of documents to obtain my permits.
➢ I am aware my Permit WILL NOT be issued until I provide proof of an approved source of potable water and associated documentation.

(If the property is owned by a corporation or LLC please attach documentation showing that the person signing has the authority to sign on behalf of the corporation or LLC.)

Please Fill Out This Section In Blue or Black Ink. (Please check the box to indicate the primary contact person)

☐ Property Owner Signature: ________________________________ (required) Date: __________________
☐ Check If You Are Acting As Your Own Contractor – (Signature required at declaration at bottom of page)

This Section To Be Completed For Construction Permits Only

Pursuant to RCW 19.27.095 (2)(i-ii) The requirement for a fully completed construction application shall include:
i. The name, address, and phone number of the office of the lender administering the interim construction financing, if any; OR
ii. The name and address of the firm that has issued a payment bond, if any, on behalf of the prime contractor for the protection of the owner, if the bond is for an amount not less than 50% of the total amount of the construction permit.

If for any reason the information requested below is not available at the time of application, the applicant shall provide the information as soon as it can be reasonably obtained.

☐ Lending Agency Name: ________________________________ Phone: ( ) ________________
Mailing Address: __________________________ City: __________ State: ____ Zip: ______
☐ I acknowledge by checking this box that this project has no lending agency for construction financing.

Bonding Agency Name: ________________________________ Phone: ( ) ________________
Mailing Address: __________________________ City: __________ State: ____ Zip: ______
☐ I acknowledge by checking this box that this project has no bonding agency.

If you are the Property Owner and Acting as Your Own Contractor, Please Complete the Following Declaration:
• I acknowledge that I am applying for a permit thru the Yakima County Public Services Department.
• I also acknowledge that I am not a licensed contractor, specialty or general, or that I am not acting as a contractor and wish to be exempt from the requirements of the Washington State Contractor’s Act, per RCW 18.27.090, and will abide by all provisions and conditions of the exemption as stated.
• I agree that if I use the assistance of any person(s) to provide labor and/or assistance, I will retain only contractors registered and currently licensed as required under the laws of the State of Washington.

I (print name) __________________________________________ certify under penalty of perjury under the laws of the State of Washington that the foregoing is true and correct.
