Task Order Name: Naches-Cowiche - Interim Riparian Maintenance
Scope of Work: North Yakima Conservation District

This task is intended to provide for riparian vegetation management across the confluence of the Naches River and Cowiche Creek in conjunction with the Naches-Cowiche Flood Risk Reduction and Floodplain Restoration Project. Funding is provided by Floodplains by Design grant SEAFBD_2019-YaCoPS-00050. Work performed will follow the Interim Riparian Vegetation Maintenance Plan which was also prepared as a deliverable for the grant. The objective is to support existing native plant vitality and to discourage the establishment of noxious or invasive weeds and other non-native vegetation.

Work includes: labor costs for Washington Conservation Corps(WCC) crews; North Yakima Conservation District (NYCD) staff time for administration, coordination, and supervision of the WCC crews as needed; and costs for plants, equipment rentals, material costs, etc. needed for the implementation of the actions identified by the interim riparian vegetation maintenance plan. The plan calls for a proactive combination of riparian best management practices including herbaceous weed control and non-native woody vegetation management as well as the use of periodic site monitoring to inform adaptive management.

NYCD will provide Yakima County with a brief written description of each action taken (what, where, why, etc.) and provide corresponding before and after photos. Yakima County will compile this information into an annual summary of work completed under this task for Ecology.

Task Start Date: 5/26/2020 **Task End Date:** 5/1/2023

TASK ORDER SUMMARY		Contracted Amount	Actual Amount	Task Completed (Y/N)
Task #	Task Order Name	Contracted Amount	Actual Amount	Task Completed (Y/N)
1	Trout Meadows - Additional Planting Effort	\$ 27,250.00	\$ -	
2	Trout Meadows - Revegetation and Site Maintenance	\$ 40,000.00	\$ -
