**Subject:** Urban Growth for Town of Naches

CAUTION : This email originated from outside of this organization. Please exercise caution with links and attachments.

Hello my name is Kari Brown. I am a current resident of the Naches Meadow development in the Town of Naches. My wife and I have been in the Town of Naches since 2013. The Town of Naches has always been a desirable place to live and raise a family. Most of the residents of Naches have been here for a very long time. When my wife and I were looking to purchase a home in back in 2012, there were not many options to buy or build. So when we heard of possible building lots being developed, we immediately made offers to purchase. I currently own three properties in the Town of Naches and take much pride in our investment in the Town of Naches. We raised our children here and have been very big part of this community for 9 years. I have been very happy with the building process with the Town of Naches. The dedication and the immediate response from the Town Administrator Jeff Ranger, Town Clerk Elvira Birrueta and Public Works Lead Paul Stanton have exceeded my expectations. This development is one of the finest areas in the Town of Naches. It is unfortunate that there is not any more building lots for more families to move to a town that I take much pride in being part of. My wife and I are always in support of new developments in the Town of Naches, to allow other families to enjoy what we have experienced. New developments create a larger tax base to support all of the wonderful opportunities that this school district and town have to offer. My wife and I receive multiple calls a month requesting rental property requests. Unfortunately for the people looking to move here, we have to turn away because our tenants typically stay for years. If and when we have a tenant move, it is a two day turn around and to get the next tenant in. Please support new urban growth for the Town of Naches. My wife and I are in full support for new developments being proposed.

Thank you,

Kari and Regan Brown
