Subject: Proposed Urban Growth – Kel-Lowery Road

The Luekhart's support the urban growth area request for Naches. Moving to Naches when I was 8 years old, living in Naches, going to school in Naches, marring my wife from Naches, raising my kids in Naches and our kids raising new families in Naches, this makes me proud to live in the Naches community. Our town has come a long way.

For a good look at the strides, we have made:

Greenway Trail, Hardware Store, Grocery Store, New School, High School Stadium, the lights, flowers, and sign coming into The Town of Naches, Forest Service Building, Clemans View Park, Naches Depot, Fire Station, Department of Natural Resources, Park & Ride, housing development West of Naches (Apple Valley Loop), Post Office. Our town has been growing and needs to continue growth to support our existence as a contractor/resident/business owner in the valley for over 30 years.

Growth will bring jobs and revenue to Naches. Contractors, business, kids into the schools, nurses, doctors, police, firemen, people that have served our country and many other people that will add to a great mix. Residential development is necessary for Naches to prosper.

Please support the urban growth request for the Town of Naches.

Sincerely,

Dain Lukehart
