Reference: City of Naches' proposed urban growth boundary expansion

As a property owner of three parcels (171403-42004, 171403-42005 & 1714023) in the City of Naches proposed urban growth expansion. From what I understand at this point in time, it's passage may be of benefit to myself and my family. Also it has come to my attention that someone claimed that I wanted my parcels taken out that is completely untrue. I did not seek nor did I oppose my parcels be included but now I would like to see them included

Respectively
