To the Yakima County Developers,

This letter is to express my disapproval of an upcoming new development on the Old Naches Highway, sponsored by the KNIK development company.

My concerns are as follows:

1. Is there a conflict of interest with the Town Administrator and this New development as well as the previous development in Naches?
2. What impact will another New Development have concerning our school system?
3. Has there been an environmental impact statement done on the said property as far as soil contamination
4. Has there been an impact statement submitted for the current road conditions since the development s for the Wenatchee Trailer park at the top of the “grade” and also the 40+ lot development on the opposite side of the road?
5. At what point do we get concerned over the already taxed water aquifer? There will be a significant irrigation impact with so many new homes compared to the agricultural irrigation.
6. What impact will this have on our community cemetery?

I am not against development, but when the impacts are not addressed I do Have concerns . My home is

less than $\frac{1}{4}$ mile from the proposed development and I wonder almost daily
"how much more traffic can this road sustain.

What actual infrastructure plans are in place to accommodate the community
growth?

The Brochure for our town paints a pretty picture however the reality is we are
a small farming communiy above all else. Our lifelong farmers deserve the
respect of continuing their life styles .

Thank you for respectfully listening to my concerns

Tammy Vetsch
