**The following items were adopted upon approval of the consent agenda:**

- February 22, 2023, Yakima Health District Board of Health Meeting minutes.
- Payment of accounts payable and payroll issued in February 2023 in the amount of \$800,276.20.

*\*Please note that approval of minutes also include the recording of the meetings.*

- 5. YHD SPOTLIGHT:** Erika Ochoa gave a detailed overview of the many services provided by the Yakima Health District, specifically highlighting programs and events that occur throughout the seasons. Just as seasons change, so might the programs and initiatives that are needed by the community during that time period. To name a few, a large focus on school events and flu prevention are a main focus throughout the fall and winter times, while food inspections, water testing, and land development are extremely popular in the spring and summer times.

**6. AGENCY UPDATES**

**Executive Director: Andre Fresco**

The concept for the seasonal work shared in the spotlight is greatly due to staff working directly with the public to meet their needs, as most mandated services and strategic goals upheld by the Health District are community focused. Foundational Public Health Services (FPHS), the funding source from the State legislature used as an investment towards public health, has allowed for hiring more staff, to be a responsive agency to the community, and to look into the investment of land, as the current office space has reached its maximum capacity for the number of staff employed, the number of guests that the Health District hosts, and the services that are able to be provided within the building. The funding provided by FPHS, which needs to be spent by June 30<sup>th</sup>, would be the preferred method of investing in land before using State and local dollars.

*Discussion Included:*

- *Clarification that potential proposals or plans for expansion will likely occur before the June 30<sup>th</sup> deadline to spend the FPHS available funds.*
- *A presence in the Lower Valley remains a top priority for the Health District, however a lot of planning and time will be needed for any potential future satellite locations.*

**Chief Operating Officer: Ryan Ibach**

The Yakima Health District is currently advertising four open positions: Local Emergency Response Coordinator, Program Manager, Project Coordinator, and an Epidemiologist. Interviews for all four positions will take place within the next few weeks. The current epidemiologist position is temporary, but due to the success and benefit found from having a local epidemiologist, it was decided to make it permanent. A COVID-19 After Action Report was sent to each Board member to seek input on the successes and areas of improvement that could better prepare for other future emergency responses.

**Health Officer Report: Dr. Neil Barg**

Dr. Neil Barg shared a presentation covering the many responses and initiatives the Yakima Health District has recently been involved with. PFAS and nitrate contamination in the Groundwater Management Area (GWMA) and firing range was an item of discussion, along with the efforts to assist those most affected by providing education and clean drinking water. Smoke pollution, fires at the local landfills, and the health impacts those can potentially cause were also part of the discussion. Other items mentioned in the presentation were the benefits of the Harm Reduction Program, vaccination clinics hosted throughout the County at local events, and the Building Resilient Inclusive Communities (BRIC) funding used to provide safer crosswalks in busy parts of Yakima.

**Financial Report: Chase Porter****February 2023 Budget Summary**

We had a gain of approximately \$487K, bringing our total of excess revenue to \$355K.

**February 2023 Revenue and Expenditures**

- Annual budgeted revenues and expenditures: \$9.9M and \$10.1M, respectively.
- Year-to-date budgeted revenue and expenditures: \$1.6M and \$1.7M, respectively.
- Year-to-date actual revenue and expenditures: \$1.6M and \$1.2M, respectively.

A large gain for the month of February was seen in investments income, Yakima County Treasure Office administers Yakima Health District investments. Expenses are under budget for the month. FPHS funds from 2022 are being used in 2023, having spent a total of \$202K and leaving \$47K left to be spent from the remaining 2022 FPHS funds. Due to seasonal activity, there is a loss in the Onsite/Solid Waste program. February, year-to-date, there is a total of \$12.5M in Cash & Cash Equivalents.

**Disease Control: Melissa Sixberry**

The Health District is monitoring three active tuberculosis patients. The State Department of Health requested the Health District to pilot the newest feature of the software used to monitor and track active tuberculosis cases. The State Secretary of Health will be rescinding the order requiring mask use in both correctional and long-term care facilities effective April 3<sup>rd</sup>. The recommendation remains to wear masks until notified otherwise. In the month of

March, 29 encounters and 4 referrals for treatment options were given to clients of the Harm Reduction Program.

**Environmental Health: Shawn Magee**

The Environmental Health Team are actively responding to the community needs in the Land Development Program. Two Environmental Health Specialists are preparing to become registered sanitarians. YHD is working closely with the two privately owned landfills, DTG Landfill and Caton Landfill, as both are up for permit renewals in the upcoming weeks. Meetings to discuss operational plans and requirements needed for the permit renewals with both landfills, along with involved agencies who help oversee these landfills, occur on a regular basis. Environmental Health Specialist Steven Newchurch is a nominee for the Rookie of the Year of the Washington State Environmental Health Association. Results will be available later this year at the annual conference.

**Public Health Partnerships: Lilian Bravo**

In partnership with the WA State Department of Health (WADOH), YHD received funding to provide PFAS water filters to 35 households that were identified through testing to have elevated PFAS levels above the state threshold, but below the federal threshold. YHD is working with WADOH to apply for a grant through the Environmental Protection Agency, which would provide \$1M over three years to expand outreach and education on environmental health issues in the Lower Valley. YHD is working with several partners on the grant application including Central Washington University, Yakima County Public Works, and Northwest Community Education Center. National Public Health Week will be from April 3<sup>rd</sup> to April 9<sup>th</sup>, which is an opportunity for the Yakima Health District to share with the community an overview of what public health is and available services to the community. As of May 11<sup>th</sup>, the State Department of Health will no longer be providing Covid at-home test kits.
