Approval of Minutes: 12/11/2023 BH SUD Coalition Meeting.

NEW BUSINESS

Final Charter
Review

Melissa Holm and Esther Magasis reviewed the updates in the BH SUD charter and the two specific priorities for action in 2024. Cassidy Leslie mentioned that having a plan for BH SUD like the YHC 5-year plan might be useful and there was a suggestion by Esther that this goal be moved out of the 2024 goal and make it an ongoing plan from year to year. The YHC Homeless Coalition Charter with revisions was shown to the members and Melissa asked if this could be adopted for the BH SUD Coalition Charter.

Commissioner Curtis asked to also review the mission since the Mission Statement needs to be agreed upon by the membership. There was a motion by Cassidy Leslie to adopt the Mission Statement for the BH SUD Coalition Charter after the members had reviewed the draft version with the updates during the meeting.

Review Systems
Map Priorities -
[Review of Behavioral Health Systems Maps](#)

Cassidy Leslie spoke to the low participation on the review of the Systems Map Priorities and it was suggested that the low response (13) was not sufficient so Melissa will be sending the JotForm out again prior to our next meeting.

Review of MHST Awards from 2023 RFPs	<p>Esther Magasis reviewed the funding and how it was awarded to the various internal partner agencies involved. She also reviewed the external partner awards that will go with the internal partner costs. She continued with the External Partners who participated in the RFP process.</p> <p>A question was posed regarding accountability for awards received and verification that the money was used appropriately before reimbursements are processed. Melissa Holm explained that to improve the way the award spending is tracked, there will be quarterly checks on the data around how the funds are used and for whom. These two pieces combined give a better picture of how the funds are being spent and how well our agency partners are meeting the required objectives.</p> <p>Rod Myers asked that our coalition work towards filling any gaps in the systems mapping data that can be identified with objectives, measurable data and at what frequency measurement. Esther responded that each project that was approved was filling the gaps revealed by the system mapping data. Mental Health Funding Decisions will be posted on the Yakima County Human Services website in the same way that homeless housing and assistance contracts are and the website, once live, will be shared with this group. Megan Tweedy suggested to the coalition that we should all try to regularly reach out to our contacts and keep them involved.</p>
Opiate Settlement Fund	<p>Esther Magasis explained Yakima County will be receiving funds from this settlement over the next seventeen years, along with many other Washington counties. We don't yet know the actual dollar amount that will be available for our county or how it will be utilized, but that is currently being worked on.</p>
	<p>Megan Tweedy asked everyone to focus on the fact that this is for opioid prevention. Toppenish schools have recently provided Narcan training and the primary request from parents was education on fentanyl prevention.</p>
