Updated HENA Data & Local Dashboards	Ivan Orozco presented the data with slides including a pie graph. Duplications were very low (Scoring rubric data). Vulnerability Scores by age and race were reviewed and discussed. We should indicate that we are continuing to find ways to include/eliminate data that refines the overall reporting.
Program Prioritization	Melissa reviewed the slides.
Proposed External Data Dashboards	Melissa asked participants how much they have reviewed/drilled down the Local Dashboards. There was agreement that they are very cumbersome. Discussion of how we could use a dashboard like this for Yakima County. A comment was given that too much detail regarding the YDHS partner agencies could be problematic. q. What dashboard details would be useful? (Melissa)
