<b>Narrative Summary Detailing Program Success:</b>	
The Mental Health Court Program has demonstrated significant progress in the first two quarters of 2025, both in terms of participation and successful outcomes. Between January and June 2025, a total of 36 individuals were accepted into the program. This marks an 80% increase compared to the same period in 2024, during which 20 individuals entered the program. Even more notably, 22 participants successfully completed the program in the first half of 2025, compared to 6 during the same timeframe last year. This growth reflects improvements in the program engagement. Program terminations have also decreased. In 2025 only 7 participants were terminated, compared to 15 terminations in the same period in 2024.
