14 of these groups had 5 attendees each group
8 of these groups had 6 attendees in each group
2 groups had 3 attendees in each group
2 groups had 4 attendees in each group**

Narrative Summary Detailing Program Success:

This program has allowed individuals to get the mental health help that they need at the moment instead of having to wait to make an appointment. This has allowed them to deal with crisis or issues that come up and able to work through it, come up with coping skills and address it in order to continue to move forward. We have been able to work with those who struggle with finding a job due to anxiety, depression or other mental health issues. We have been able to help those who are anxious when trying to find housing, deal with difficult situations with school or authorities.

Encountered Barriers:

Some barriers are not having funding in order to operate the program as it should be. Mental health requires a lot of education and training in order to stay up to date with current RCW's and WAC laws.

Significant Changes to the Program:

Changes that have been made were hiring two interns into the program and hiring a part time therapist in order to provide more services to individuals that we serve.

Submission of current staffing model (Including vacant positions)

We currently have a therapist at the Hope Center for both the youth and young adults, 1 therapist at the YAEH, 1 intern at the RC. We are still currently looking to hire a therapist for the RC.

Anything Else?

As stated above this added Behavioral Health Program has been a huge benefit to the Youth and Young Adults
