The Public Safety Division of the City of Toppenish is very appreciative for the support and the votes of the citizens of Yakima County. The funding provided by this tax, has provided the city with 3 additional patrol officers and a Jailer.

Increasing patrol has allowed for the department to maintain its specialized Street Crimes Unit in order to address directed crime problems in the community. The jailer position also is important to maintain service in the communities' local jail and allow for more efficient supervision of inmates.

The 3/10ths money clearly allows for additional officers, tactical equipment and uniforms, as well as overtime. Throughout the year the department has been able to maintain participation in valley wide crime sweeps, gang emphasis patrols, and narcotics investigations as well as continue to provide full-service to the community in regard to call response, case handling, and investigations.

We are dedicated to serving the citizens of Toppenish and to provide continued support in our efforts to network with other law enforcement agencies to address the crime problems of Yakima County. We will utilize these funds responsibly so that we can continue to maintain the public's trust.
